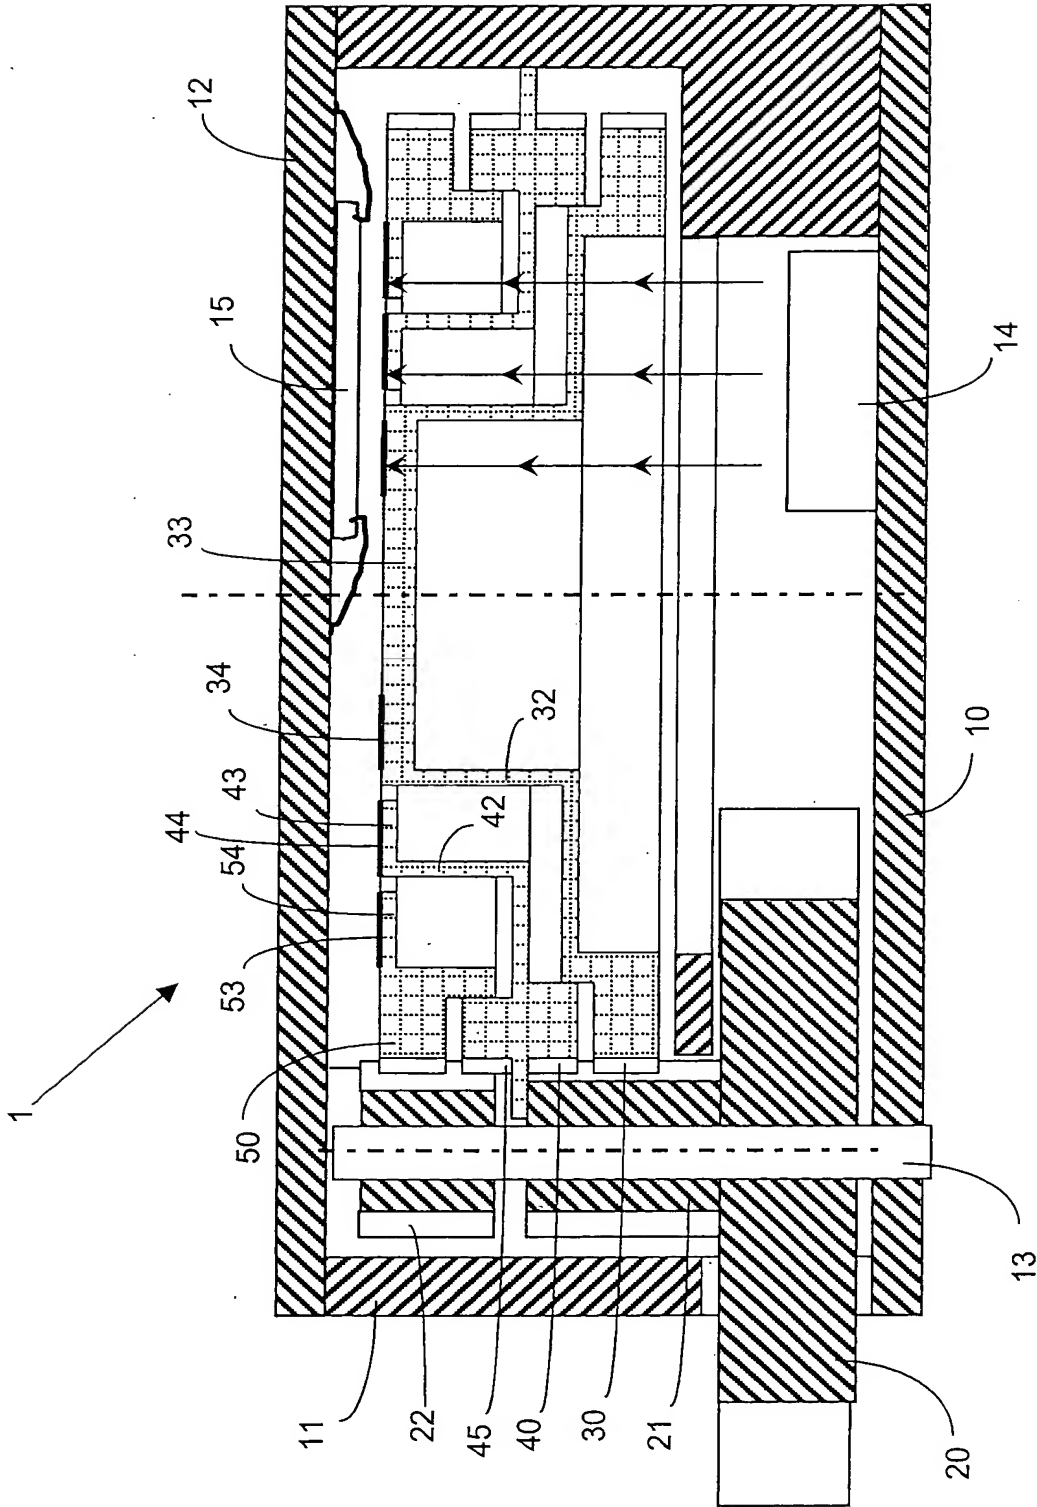

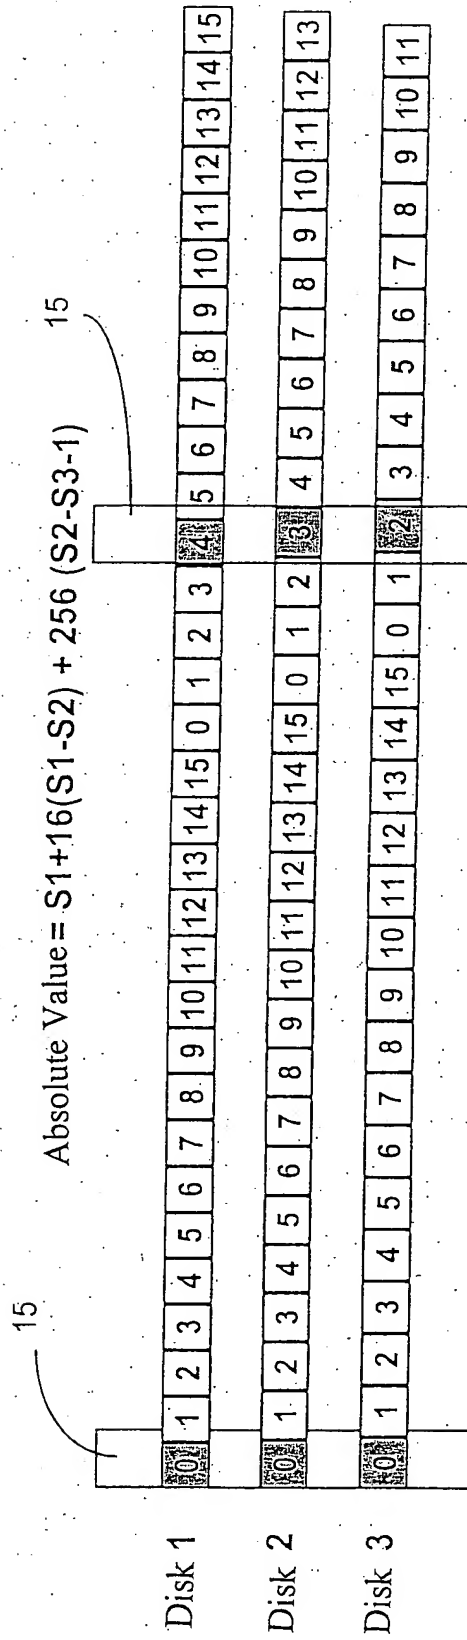

Fig. 2

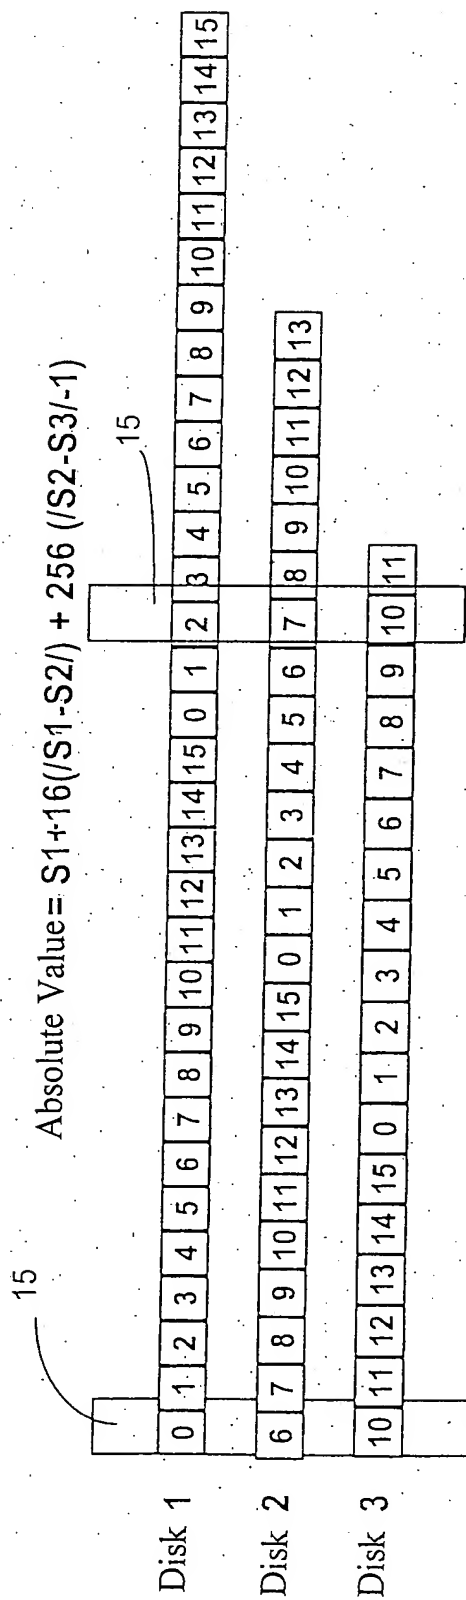

3/4

$$P=0+16(0-0)+256(0-0)=0$$

$$P=4+16(4-3)+256(3-2-1)*0=4+16=20$$

Fig. 3

$$P = 0 + 16((0 - 6)) + 256((6 - 10) - 1) = 6 * 16 + 3 * 256 = 864 \quad P = 2 + 16((2 - 7)) + 256((7 - 10) - 1) = 2 + 16 * 5 + 2 * 256 = 594$$
